

INSITE: A GFC-FREE ZONE

As we all know, Australia fared relatively well in comparison to the rest of the world in the recent Global Financial Crisis. InSite Commercial Interiors has been no exception to this.

InSite has increased its staff numbers due to continuing demand for its services, and whilst enquiry levels are not what was experienced pre-GFC, Insite has seen a change in the nature of the office fit outs it is undertaking for its diverse client base, with an increase in refurbishments and re-fit outs.

Whilst some companies are still growing (particularly on the back of the new resources boom and are therefore looking for additional space to meet their office needs, other companies have decided to consolidate their square meterage and to release some of this space through subletting. Such strategic thinking can provide companies with fresh opportunities to make economical use of the space they have.

InSite's space planning service enables firms to optimize the amount of space they are using, and this can often result in substantial savings both in lease and office fit out costs.

InSite Commercial Interiors Senior Designer Ahmad Albadri and Managing Director Ron Bullen

InSite have recently completed fit outs for a variety of companies including, amongst others, Westminster Insurance, Karara Mining, HLB Mann Judd and Robert Half International.

If your company is considering moving offices or refurbishing existing premises, InSite will undertake a free, no obligation assessment that can assist you in appraising your choices and ensuring you achieve the maximum benefit from your proposed move. Phone 08 9422 1900
